

Dear Graduate Student Council Election Committee,

I am writing to express my sincere interest in the position of Vice President of Communications and Marketing for the Graduate Student Council (GSC) at the University of North Texas. I am confident that I am well-suited to excel in this position and make a significant contribution to GSC's initiatives as a dedicated Marketing professional and an impassioned advocate for student engagement.

Currently, I hold the position of the Social Media Manager and Content Creator Lead for the Indian Student Association (ISA) at UNT. I have effectively engaged with a diverse student audience by managing marketing campaigns, creating promotional content, and utilizing social media platforms in this capacity. My time in this position has strengthened my ability to create impactful visual and written content that resonates with a variety of target audiences. I am dedicated to making sure that my communication strategies are clear, engaging, and effective in promoting ISA's initiatives and events.

My academic background significantly qualifies me for this position. I am currently pursuing my master's degree in data science at UNT, having previously completed my master's in computer science. This technical background has provided me with excellent analytical and problem-solving skills, which I believe are essential for managing GSC's communications platforms. I am confident in my ability to use social media analytics insights to create data-driven marketing strategies, enhance content reach, and boost audience engagement.

If I am elected as the Vice President of Communications and Marketing, my goal is to enhance GSC's digital footprint, making certain that all initiatives are clearly conveyed to the UNT graduate community. I intend to implement creative marketing approaches that encourage increased participation in GSC events, raise awareness of available resources, and highlight the varied accomplishments of our graduate students.

I'm thrilled about the opportunity to showcase my creativity, technical talents, and dedication to this position. I'm looking forward to contributing to GSC's purpose by enhancing communication channels and keeping graduate students informed and engaged. Thank you for your time and attention.

Sincerely,

Aaditi Dharmendra Bhandari
