WELCOME TO UNT’S TOULOUSE GRADUATE SCHOOL.

I’m pleased you have taken an interest in our caring and inclusive university. As one of only 18 Carnegie-ranked Tier One research universities designated a Hispanic-Serving Institution, UNT is proud to have also been designated a Minority-Serving Institution. Additionally, we’re a four-time Higher Education Excellence in Diversity Award winner. You’ll get much more than an exceptional education and incredible research opportunities here. You’ll be part of a community that roots for your success.

We offer 130 advanced degrees to help you create the future you want, many offered 100% online or at UNT at Frisco in addition to our campus in Denton. But no matter how you choose to pursue your degree with us, you can count on our support to help you achieve a higher degree of excellence in your life.

Here are just a few of the top reasons to earn your graduate degree with UNT:

• You can join a research team in your area of study or participate in interdisciplinary projects. We partner with agencies and businesses like NASA, the U.S. Department of Energy and the National Science Foundation.

• Our faculty are at the top of their fields yet grounded in their dedication to students. This year, Stanford University named 46 UNT researchers among their list of the world’s most cited researchers.

• You’ll gain access to top employers through our powerful professional partnerships with some of the nation’s best-known companies, including the Dallas Cowboys, Tesla and the American Heart Association, to name a few.

• You’ll graduate with the confidence and experience needed to be a highly sought-after candidate in your industry.

I invite you to learn more about the UNT program that fits your career aspirations. When your passion meets our expertise, there’s no limit to what you can accomplish.

With UNT pride,

Victor Prybutok
Vice Provost for Graduate Education and Dean of the Toulouse Graduate School

A personal touch: UNT faculty like Dr. Prybutok, Dean of the Toulouse Graduate School (sitting at table), know the value of faculty-student collaboration, inside and outside the classroom.
